

CHILD OF THE MONTH

NOVEMBER 2020 O.M.

O is one of a group of siblings that we have at Bethesda. She turned 8 this year along with her twin sister. We are so thankful for her how she is growing in her understanding of God and His Word. Her mom described her as a girl who is kind, loving and joyful. She likes to have fun and have her friends in for sleepovers. She helps around the house by washing the dishes, cleaning the house and doing her homework without being asked. She is growing in her independence in that she is doing more and more without having to be told all the time.

Even though she's 8 years old, sometimes she acts more like a teenager. She recently told her mom that when she grows up, she wants to be an educated person with a nice car and beautiful house and that she is going to work every day because she likes a good kitchen—and she doesn't want dirty dishes in it! 😂

Her mom has asked that you pray that O will grow in her understanding of God's Word and applying it to her life. Also, that she will grow in her confidence to do things well.

Please pray for O

- To grow in her understanding of God's Word
- To become more confident to do things well.

CHILD OF THE MONTH

DECEMBER 2020 T.M.

Please pray for T

- To be a better peacemaker
- To understand the Gospel and his need for salvation

T is a quiet young man with a lot of potential in his life. Currently, he is in high school and starting to prepare for his next steps in a few years. God has gifted him as a good athlete. If you ask him what he likes to do (besides soccer), he enjoys drawing, watching movies and playing video games along with taking a good nap here and there. He is a serious person who is also a good helper at home. He enjoys a course on tourism that he is taking in school and is helpful with the younger children in his house.

T says he likes to hear about the Word of God but you can pray that God will really work in his heart to understand his need for salvation. He struggles with his behavior sometimes and wishes he was better at making peace. He likes Bethesda and his family because they have protected him and given him a good education.
